TOTAL ACIDITY & RESIDUAL SUGAR

5.8 g/L & 1.2 g/L

ALCOHOL

13,0 %

PRODUCTION

600 bottles

From Vienna's second-highest location, the Kroissberg vineyard in Maurer has a base of flysch sandstone with schist in the topsoil and Dolomitic limestone below, and is surrounded by the Vienna woods that create a special microclimate.

This vineyard has 11 different grape varieties (Grüner Veltliner, Riesling, Neuburger, Furmint, Pinot Gris, Pinot Blanc, Chardonnay, Zierfandler, Rotgipfler, Sauvignon Blanc, and Gewürztraminer) that are fermented in used French oak (225L Chassin barrels) and used Stockinger Austrian oak demi-muids.

This single-vineyard Gemischter Satz hails from a south facing exposure in Vienna's second highest elevation, the Kroissberg. With 13 grape varieties in soil based on Dolomite limestone and a base of Flysch sandstone, the wine offers an elegant expression of the local terroir.
